

Engage All Students with Verbit & Panopto

Verbit supports a seamless, two-way integration with Panopto that simplifies and automates captioning requests for our customers using the service. This exciting integration allows our clients to affordably and quickly caption their videos to make them accessible for students without delay.

Users can save significant time with the ability to import media files from Panopto directly to Verbit for captioning, as well as leverage the **Verbit editor**, an **offline interactive player**, **transcription templates**, **live progress tracking** and **download drafts** throughout the process.

The Integration Provides:

- ✓ Easy setup on both the Verbit and Panopto platforms
- ✓ Automatic submission of files for captioning from specific Panopto folders
- ✓ Faculty approval of access to files and folders with permission settings
- ✓ Submit academic lectures files regardless of length and receive completed jobs quickly
- ✓ On-demand, personalized customer support with a designated specialist
- ✓ CART services available on the Verbit platform

“After considering a number of different solutions, we chose Verbit because of the superior accuracy, turnaround time and cost they offered. It’s been a definite game-changer for us.”

George H. Michaels, Executive Director, Instructional Development & Interim Assistant Dean, Letters & Science IT, UCSB

Among our integrations, partners and customers:

Verbit’s smart transcription and captioning solution harnesses the power of artificial and human intelligence to generate the most detailed speech-to-text files, providing over 99% accuracy, record-breaking speed and on-demand CART services. Our adaptive AI technology is trained to recognize specific terms and integrate with all major LMS and content management platforms.
